PROFILE

Full-stack developer building fast, accessible web apps with Next.js, NestJS and TypeScript. Shipping production web apps since 2021 — from data model and API to accessible, fast interfaces. Core stack: Next.js · NestJS · TypeScript · MongoDB.

EXPERIENCE

Frontend / Backend Developer · Startup

Dec 2024 — Sep 2025

Jeonju, South Korea · on-site / remote

- Built e-commerce platforms with a Next.js front end and NestJS back end.
- Designed reusable NestJS modules for auth, uploads and business logic.
- Deployed the full project with Docker and managed data in MongoDB.

Full-stack Developer

Mar 2021 — Jul 2024

Tashkent, Uzbekistan · remote

- Delivered MERN-stack products end to end: customer sites plus admin panels for products, users and orders.
- Owned back-end APIs, authentication, image uploads and database design.
- Built responsive React UIs for catalogues, carts and dynamic data.

SELECTED PROJECTS

FurniFi · Marketplace platform

furnifi.tech

Gave independent furniture sellers a self-serve storefront: agents list and manage inventory while buyers filter, save and purchase — all on a typed GraphQL API with role-based access.

Next.js · NestJS · GraphQL · MongoDB · TypeScript

Jersey Republic · E-commerce + admin panel

jersey-republic.vercel.app

An online jersey store with a real back office: shoppers browse club and national-team kits and check out, while an admin panel handles orders, users and stock in one place.

React · Node.js · Express · MongoDB · MUI

WeVape x 전담어때 · Client storefront

wevape-jeondamottae.vercel.app

Turned a local Seoul shop into a trilingual (Korean, English, Chinese) storefront with a 19+ age gate, product catalogue, Naver Map directions and one-tap Naver TalkTalk / WeChat contact.

HTML · CSS · JavaScript · i18n · Vercel

Movie Watchlist · Web app

movie-watchlist-xi-eight.vercel.app

Helps film fans keep track of what to watch next: search, build a personal watchlist, rate what you've seen — and highly rated films surface as recommendations for everyone else.

React · React Router · REST APIs · JavaScript

SKILLS

Front end

React, Next.js, TypeScript, Tailwind CSS, Redux Toolkit, Accessibility, Responsive design

Data

MongoDB / Mongoose, MySQL, Schema design

Back end

Node.js, NestJS, Express, GraphQL (Apollo), REST, WebSockets, JWT / session auth

Infrastructure

Docker, Linux, Nginx, GitHub Actions, PM2, Vercel

EDUCATION

Jeonbuk National University — International Engineering and Science · 2020 — 2024

CERTIFICATIONS

Claude Code 101 · Claude Academy, 2026
TOPIK Level 3 (Korean) · TOPIK, 2026
IELTS 6.5 · IELTS, 2019
